

BUILDING MOMENTUM FOR THE LONG-TERM CCS DEPLOYMENT IN THE CEE REGION

Second annual regional conference in Vilnius

DATE 24 November 2022, 15:30-17:30 EET
PLACE Vilnius Greentech Forum
In-person and online event

The CCS4CEE project consortium is pleased to invite you to the second annual regional conference of the project, which will take place on the 24th of November in Vilnius as a part of Vilnius Greentech Forum – the annual energy forum for business, political and societal leaders.

The event will be available:

- in-person: more details about the Vilnius Greentech Forum and tickets for an in-person format is available [HERE](#);
- online: please complete the registration for free online access using this [LINK](#)).

The purpose of the conference is to present the results of the project, as well as to enable and encourage communication and cooperation among regional stakeholders. We will host speakers representing the CCS4CEE project, as well as stakeholders involved in CCS from the surrounding region. Further details and materials will be sent to registered participants before the event.

The CCS4CEE project aims to re-launch the discussion on the long-term deployment of CCS technologies in Central and Eastern Europe to evaluate the implementation of new policies and joint projects.

We look forward to seeing you there!
